## Introduction

---

The Local Authorities Pension Plan was established effective April 1, 1962, by the Local Authorities Pension Act to provide a contributory pension scheme for employees of local authorities in Alberta. Local authorities include cities, towns, counties, municipal districts, hospitals, school divisions and districts, and other public bodies in Alberta approved by the Lieutenant-Governor in Council.

The Local Authorities Pension Act was repealed on November 1, 1985, and replaced by the Local Authorities Pension Plan Act. Under the new legislation, policy and administration became the responsibility of the Lieutenant-Governor in Council and the Minister respectively, while the Local Authorities Pension Plan Board was assigned an advisory and appellate role.

## Plan Overview

---

The Local Authorities Pension Plan is a contributory defined benefit plan. Since 1989, employee contributions have been set at a rate of 4.375 percent of basic salary, up to the year's maximum pensionable earnings under the Canada Pension Plan, and 6.25 percent on any excess. The employer contributes at a rate of 1 percent higher than the rate of the employee contributions. The net amount of pension contributions less payments is deposited to or withdrawn from the pension fund pursuant to the Pension Fund Act. The income of the pension fund accrues to and forms part of the fund. The Government of Alberta guarantees the payment of all benefits under the Local Authorities Pension Plan.

Members may retire at any time after age 55, if five years of pensionable service have been accumulated. Normal pensionable age is 65, but members may also retire on an unreduced pension at any time after age 55 providing that pensionable service plus age totals not less than 85. There is no mandatory retirement age. Pension benefits are based on the number of years of pensionable service multiplied by 1.4

percent of salary up to the maximum pensionable earnings under the Canada Pension Plan and 2 percent of the excess salary. Salary is calculated as the highest average pensionable earnings for five consecutive years. If the member has a spouse, unless a waiver is signed by the spouse, the pension must be a joint pension guaranteed for the life of the member and spouse. The normal form of a pension is for the life of the member with a five year guarantee period. Single members may elect a life pension, choosing a normal pension, or a 10, 15 or 20, year guarantee period. They may also elect a joint life pension based on their life and that of a nominee.

The plan also makes provision for those members who die prior to retirement and have accumulated at least five years of pensionable service. In such cases, the surviving spouse is entitled to either a spousal pension or a lump sum benefit. The spousal pension is equal to the survivor benefit of a non-reduced joint life pension. A beneficiary other than a spouse must accept a lump sum benefit.

## Review of Operations

---

The Local Authorities Pension Plan is administered by the Payroll and Pensions Division of Alberta Treasury.

During the year under review, the division continued on an active course of automation, computer systems upgrading and procedural improvement. The administration of retirement benefits received particular attention with the redevelopment of the retirement benefit calculations. In addition, pension file tracking was enhanced, better payment controls were implemented and system response time was improved.

The fiscal year 1990–91, saw the trial implementation of a system to provide for direct

deposit of contribution remittances. Benefits from this program will allow employers to transfer their monthly remittances directly to Payroll and Pensions through the banking system. An initial group of employers participated in a pilot program to assist Payroll and Pensions in refining the process. Results to date have been very favourable, and it is hoped this feature can be offered to all employers in the next year.

Review and planning for federal and provincial pension reform involved all sections of the Pension Administration.

## Actuarial Liabilities

---

An independent actuarial valuation carried out at March 31, 1990, estimated the accrued liability of the Local Authorities Pension Plan to

be \$3,811,000,000. The normal actuarial cost of the plan as a percentage of payroll was estimated at 9.6 percent.

## Participation

---

At March 31, 1991, there were 492 employers participating in the Local Authorities Pension Plan, 83,056 active contributors, and 4,942 terminated employees who had either not made a choice regarding their plan status or were awaiting a deferred pension.

A summary of the types of participating employers and the number of participants is provided in the section on contributions.

## Book Entry Transfers

The following transfers to and from other pension plans administered by the Province of Alberta were made by book entry during the

year. These transfers are not reflected in the Statement of Receipts and Payments.

	<u>5,149</u>	<u>21,426,098</u>

## Death in Service Benefits

---

In the current year, 123 members died while in service. Sixty-two of the surviving spouses were granted spousal pensions. Lump sums were paid

to a total of 73 individual beneficiaries in respect of the other 61 deaths in service.

## Information and Counselling Services

---

Payroll and Pensions Division presented 40 information seminars to employees during the year. In addition, three orientation and 60 general workshops were held for employers to assist them in their pension administration responsibilities. The average attendance for each seminar and workshop was 30 and 16 respectively.

Alberta Treasury training facilities in Edmonton, as well as facilities in locations across the province, were used for these sessions.

Four *Pension News* information bulletins were prepared for employers to assist them in carrying out their responsibilities under the pension plan. The Alberta Retired Public Employees Society was again assisted by Payroll and Pensions with the publication of their quarterly newspaper *Postscript*.

Annual statements containing information on pensionable service, contributions, and prior service were produced and forwarded to employers for distribution to all active participants in the plan.

## Pension Benefits

---

During the year ended March 31, 1991, pension benefits paid totalled \$147,966,165; an increase of \$14,478,083 (10.8 percent) over the previous year. A total of 1,342 pensions were granted in

the categories shown in the table below. Previous year figures are included for comparison.
